PROJECT PURPOSE

To set up and operate a pan-European network aimed at improving and disseminating the current knowledge of regulatory processes as well as the degree and mode of implementation of impact assessment procedures in EU member states, Israel, Moldova, Serbia and Ukraine

PROJECT MAIN ACTIVITIES

- Database on Impact Assessment (IA) Development
- Exploring relationship between IA and regulatory quality indicators
- Disseminating knowledge on the current methodologies
- Development of a website (<u>www.enbr.org</u>)
- Performance of inter-disciplinary studies and analyses
- Organisation of thematic workshops for awareness
- Publication of Annual Progress Reports on IA
- Exploration of new lines of research on better lawmaking
- Networking aimed at coordination/harmonisation of IA
- Ongoing dialogue with other projects

BRC MAIN ACTIVITIES IN THE PROJECT

- Researched legal framework related to regulatory process and impact assessment in Moldova
- Reviewed impact assessment documents produced in Moldova
- Completed Database on Impact Assessment with data on Moldova
- Produced research papers and presentations on Moldova
- Participated to regular project meetings every 6 months

BRC ADVANTAGES

- Improved Skills in field of better regulation and IA
- Improved administrative skills in dealing with FP6 projects
- Promoted organization with potential partners, donors, clients
- Established relationship with organizations and professionals from other countries, including leading experts
- Potential for extension of the project activities under other donors
- Experience counted as an asset for other tenders

THANK YOU!
